We provide engineering solutions and machinery service for industries and laboratories

Terrium

We offer custom-made **3D printing service** (e.g. aspirator-head adapters, magnet holder, tube holders and also designer statues)

We offer **customized engineering service** for ovens, hygiene machineries and other lab-based renovation with our small-scale plant in KEDAH region.

We provide cheaper cost of **material analysis** (e.g. FESEM, XRD, AFM, mini-EIS) & **biosensor platform and transducer film** fabrication service
